

## RING SIZING GUIDE

Preferably use an existing ring for this sizing guide, and for the greatest accuracy use a ring with the same band as the one you would like to buy.

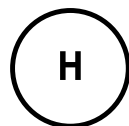

Print this page at 100% do not select the shrink to fit or scale to fit option. To check the scale is correct the line below should measure 5 cm from point to point.

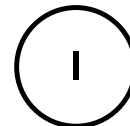

Place the existing ring over the circles on the right until the internal diameter matches that of the black outline. The letter within is your ring size.
